## Salient Features

BODYCAB is two times lighter in weight as compared to conventional metal body

100% cost saving as compared to conventionally used Toyota Hi-Ace van for Digital Satellite News Gathering purpose.

Our computer optimized aerodynamic shape slices through built-in wind deflector which reduces air drag to save precious fuel

Purpose-made heavy gauge MS pipes skeleton frame to withstand heavy DSNG equipment load on roof

Specially designed rear and side doors with original Toyota locks, imported rubber sealing and hydraulic dampers

Double finish fiber glass skin with polyurethane insulation to save the expensive equipment from heat

Non-slip flooring with imported vinyl

Life time rust-proof due to the best plastic and fiber reinforced composites used

Imported glass fiber composite raw materials

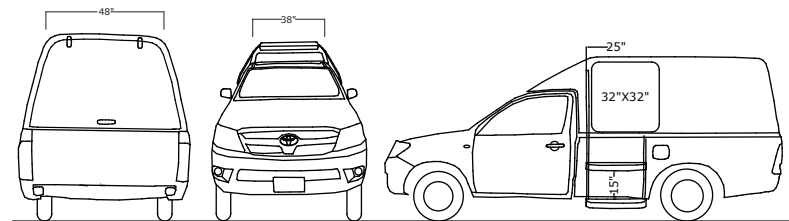

High quality 2K PU based Standox German paint (long-lasting as the original paint on vehicles)

German galvanized Ellen Key type fasteners

Complete graphics printing, designing and pasting services in collaboration with 3M Scotch print graphics giving you complete hassle-free one-window solution (optional)

**BODYCAB DSNG (Hilux)** in a class of its own, proven for its performance, manoeuvrability, high speed, and capability to reach the news scene rapidly. Quality and durability capable of mastering the smooth and rough terrains alike as compared to Hi-Ace or any other vehicle.
